Ms. Vicki Hadd-Wissler  
2255 N. Wyatt Drive  
Tucson, AZ 85712

Dear Ms. Hadd-Wissler:

Creighton School District's Governing Board committed to adopting a comprehensive sexuality education curriculum in an effort to update the more than 15-year-old curriculum and provide current sexuality education instruction to Creighton students. Throughout the 2012-13 school year, a curriculum review committee reviewed several sexuality education programs. On April 2, 2013, the Board approved the adoption of All about Life and Family Life and Sexual Health (FLASH) for the 2013-14 school year.

In preparation for the adoption, a pilot of the FLASH program was implemented in selected grades and schools. Planned Parenthood provided training to teachers, who participated in the pilot implementation. The pilot was implemented successfully as a result of the training.

Planned Parenthood was an integral partner in this process. Planned Parenthood provided a knowledgeable representative to the curriculum review committee, sponsorship for the substitute teachers so teachers could attend the FLASH training, trainers for the FLASH training, and ongoing support in planning future trainings and implementation.

Thank you for your support in the sexuality education adoption and implementation process. I look forward to our continued collaboration in the future.

Sincerely,

A handwritten signature in black ink, appearing to read "Sylvia Earl", written in a cursive style.

Sylvia Earl  
Special Projects Director  
Curriculum, Instruction, and Assessment Department  
Creighton Elementary School District
